Mr. Richard Kerr

Dear Mr. Kerr:

(U) Enclosed are copies of the FY 1986 GDIP external research and analysis contract summary sheets for CIA's review and comment. Please identify any proposals which are unnecessarily duplicative of CIA on-going or planned analyses, or which CIA might be interested in working jointly. For FY 1986, none of our proposals appear to be suitable for joint interest with the State Department. Although the mechanics for this process were not worked out satisfactorily last year, General Williams wants closer coordination with other intelligence producers on external research and analysts contracts.

(U) We would like CIA comments on these contract proposals by 15 November 1984. can obtain additional information of any proposal upon request.
